Dear Mr. Glerum,
RE : ELECTRIC VEHICLE CHARGE CENTRE SITE – VICTORIA RD – DISS – IP23

Further to our calls and discussions regarding a food bank collection point on your site where you are proposing to develop it out for an Electric Vehicle Charge Centre together with a Costa Coffee and a Burger King café. We are writing to confirm that we think that this is an excellent concept and one that very few people think of when developing. We look forward to finalising the agreement.

We think that this will work really well and make people charging their cars and having a coffee really think about people not so fortunate as them.

The fact that it is your intention to place one of these collection points in each of your developments throughout the country speaks volumes.

For us you are doing a very charitable thing, and we hope that you will be successful with your planning application at Diss, so as to create a beacon for what others should do.

We look forward to working together on this and other projects that you are planning to do in the Waveney Valley area.

Kind regards,

Matt Scade Project manager
Waveney Foodbank
